

Lotus Petal Foundation

Building one of India's Largest Philanthropic School for 10,000 children from underserved backgrounds

EVERY CHILD DESERVES THE CHANCE TO BUILD A BETTER FUTURE.

Yet for many children from underserved communities, education is interrupted by challenges far beyond the classroom.

At Lotus Petal Foundation, we work to change that.

Since 2011, we have been building an ecosystem where children are not only able to access quality education, but are empowered to grow with dignity, confidence, and hope. What **began with just 6 students** in a shopping arcade has today grown into an integrated state-of-the-art education & skill development campus, Lotus Petal Sr. Secondary School, **impacting over 1,200 children through a holistic model focused on Education, Nutrition, and Livelihood.** With administrative costs maintained at just 5–7%, recognition as a **Great Place to Work for six consecutive years (FY20–FY26)**, and **500+ alumni earning 1.5–2x India's per capita income**, Lotus Petal Foundation has built a scalable and high-impact model for sustainable social transformation.

Creating Measurable Social Value

An independent **social impact assessment by KPMG in India measured that every ₹1 invested at Lotus Petal Foundation creates a social value of ₹3.12 in Education**, ₹2.44 in Nutrition, and ₹5.28 in Livelihood.

Introducing the ZCZP Bond Issue

As part of the next step in our journey, Lotus Petal Foundation is **launching its Zero Coupon Zero Principal (ZCZP) Bond Issue on the BSE Social Stock Exchange**. This milestone marks a transformative step in our journey towards building a more transparent, credible, and scalable model for creating lasting social impact.

A ZCZP Bond is a regulated social impact instrument that allows subscribers to participate in verified social initiatives with transparency and accountability. These bonds are designed purely for social impact.

Through this issue, individuals and institutions can directly contribute towards creating measurable social impact for children from underserved communities by enabling access to quality education, nutrition, safe transportation, and holistic development opportunities.

Issue Snapshot
